

Dear UCSF Department of Medicine Faculty and Residents,

We are delighted to announce that Dr. Raman Khanna has been selected as the new Program Director for the Clinical Informatics Fellowship Program, effective July 1, 2019.

Dr. Khanna has served as the Associate Program Director of this program since July 2018, and has been active in the field of Clinical Informatics for the last 10 years. Raman has experience in several of the digital health verticals on campus from CDHI to the CHIO.

Dr. Khanna is an Associate Professor of Clinical Medicine and the Medical director of Clinical informatics for the inpatient service at Moffitt Hospital. He received his undergraduate degree from Northwestern University where he majored in Religion. Raman also earned his medical degree from Northwestern as well as completing his Internship and residency there.

Once again, we wish to thank Dr. David Avrin for his exceptional service as the program's inaugural fellowship program director. Dr. Avrin not only started the fellowship but he also recently led a recent and successful ACGME site visit. Under his leadership, the fellowship program is on track to become one of the country's leading programs.
